

VR Application for ArchViz **MetaRealty VR**

MetaRealty is a VR application for real estate and architecture that offers immersive property experiences in a virtual environment for buyers, investors, and architects. Through virtual reality (VR), you can step into properties from the comfort of your space. Experience interactive 360-degree tours and customize interiors virtually. Our platform bridges geographical gaps and accelerates your property search.

The application is accessible to a wide range of users. It can be accessed through a VR headset or a web browser and is compatible with different platforms and devices. The application is also customizable and can be tailored to the specific needs and requirements of different customers and properties.

- ✓ Dynamic Views
